

To the residents of
Address«letter»
Postcode DRONTEN

**Please note! This letter contains important
Information about your waste containers**

Date: 26 August 2022
Subject: Your waste containers will soon be microchipped

Dear resident,

The Municipality of Dronten is going to install a chip on the mini-containers for Vegetable, Fruit and Garden Waste (GFT), Paper and Plastic Cans and Drinks Packaging (PBD). This means that we will visit your home to chip and register the containers belonging to your address. This letter is intended to inform you about this. We also tell you how you can change the capacity of your waste containers if you wish to do so.

Your containers will be fitted with a microchip

All mini-containers for household waste in the municipality of Dronten will soon be fitted with a microchip. The chip contains a unique number that is registered with your address. We are doing this to provide a better service, to combat illegal containers and to better manage the stock levels. It also enables us to provide targeted information about separating waste. You will find information about the Privacy Regulations regarding Microchips and the Waste Card (Afvalpas) at the website www.dronten.nl/direct-regelen/afval/omwisselen-minicontainers. It states there what data we record and for what reason.

What are we going to do exactly?

- We will be installing a chip in your mini-containers for GFT, paper and PBD;
- Would you like a different capacity container? That's possible! If you inform us of this **before 23 September 2022**, this is free of charge. After this date, you can only request a different container capacity after 1 January 2023. This costs € 40 per container each time;
- Your choice of a smaller or larger container does not affect the annual waste collection charge.

We assume that your current mini-containers have a capacity of 240 litres. You can see this on the lid of your mini-container. If you don't respond to this letter, the capacity of your containers will remain unchanged.

Do you currently have a 180 litre container? Then please contact our helpdesk: tel. 085 - 020 3740 so that we can register the correct information.

Would you like a smaller mini-container?

Would you prefer to receive a smaller **180 litre** mini-container for one or more types of waste? Please let us know **before 23 September 2022** via www.containerkeuzedronten.nl.

Please have your personal login code ready: ***** **see the personal code in your letter**

side

No internet access? Or are you having problems communicating your choice?

In that case, you can call 085 - 020 3740 (local rate) on working days from 8.30 a.m. to 5 p.m. to inform us of your choice.

Would you like to see the mini-containers before making your choice?

Between 8 and 23 September, sample containers will be available at various locations in all village centres.

You can find the times and locations at www.containerkeuzedronten.nl.

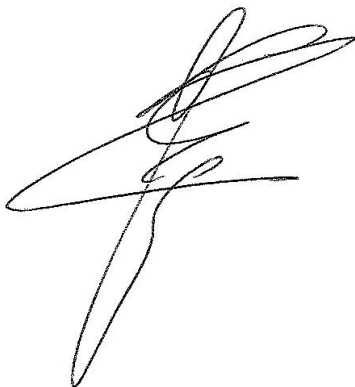

When will the mini-containers be chipped and exchanged?

We will chip and exchange chosen mini-containers between October and December 2022. You will receive a letter before this takes place in your neighbourhood. This letter will explain how the chip and exchange works and when we will visit your address. You do not have to stay at home for the chipping or exchange process. The usual collection days for your waste collection will not change.

Questions?

Do you have any questions? You can read more about the chipping and exchange of mini-containers in the Municipality of Dronten at www.containerkeuzedronten.nl. Here you will also find answers to the most frequently asked questions. Is your question not included? Then you can contact us from Monday to Friday from 8.30 a.m. to 5 p.m. via telephone number 085 - 020 3740. For more information about the separation of household waste, please visit www.wijgaanvoor100.nl.

Yours sincerely,
On behalf of the Municipal Executive of Dronten

Ing. E. Smit
Team Manager of Waste, Cleaning, Civic and Accommodation Management
