To the residents of
Address
Postcode DRONTEN

**Please note! This letter contains important
Information about your waste containers**

Date: 26 August 2022
Subject: You will soon receive new mini-containers

Dear resident,

The Municipality of Dronten is going to exchange the mini-containers for Vegetable, Fruit and Garden Waste (VFG), paper and Plastic Cans and Drinks Packaging (PBD). This means that we will collect your current containers and you will receive new mini-containers in return. This letter explains what you need to do and how you can change the size of your new mini-container(s) if necessary.

**The containers are fitted with a microchip**
All new mini-containers for household waste in the Municipality of Dronten will be fitted with a microchip. The chip contains a unique number that is registered with your address. We are doing this to provide a better service, to combat illegal containers and to better manage the stock levels. It also enables us to provide targeted information about separating waste. You will find information about the Privacy Regulations regarding Microchips and the Waste Card (Afvalpas) at the website www.dronten.nl/direct-regelen/afval/omwisselen-minicontainers. It states there what data we record and for what reason.

**What are we going to do exactly?**

- We will be exchanging all old mini-containers for new ones in the Municipality of Dronten. These will have a capacity of 240 litres. You will receive a maximum of one container per type of waste;
- You can request a different format of mini-container once free of charge. If you inform us of this **before 23 September 2022**, this is free of charge. After this date, you can only request another size of container after 1 January 2023, and the exchange of a mini-container will cost € 40 per container each time;
- Your choice of a smaller or larger container **does not** affect the annual waste collection charge.

**If you <u>don't </u>respond to this letter, then you will receive the following mini containers:**

- One paper container of **240 litres**
- One GFT container of **240 litres**
- One PBD container of **240 litres**

**Smaller containers?**
Would you prefer to receive a smaller **180 litre** mini-container for one or more types of waste? Please let us know **before 23 September 2022** via www.containerkeuzedronten.nl

Please have your personal login code ready: ****** **see the personal code in your letter**

Continue reading on the reverse side

**No internet access? Or are you having problems communicating your choice?**

In that case, you can call 085 - 020 3740 (local rate) on working days from 8.30 a.m. to 5 p.m. to inform us of your choice.

**Would you like to see the mini-containers before making your choice?**

Between 8 and 23 September, sample containers will be available at various locations in all village centres.

You can find the times and locations at www.containerkeuzedronten.nl.

**When will the mini-containers be exchanged and emptied?**

We will be exchanging the mini-containers between October and December 2022. You will receive a letter before the containers are exchanged in your neighbourhood. This letter will explain how the exchange works and when we will visit your address. You do not have to stay at home for the exchange process. The usual collection days for your waste collection will not change.

**Questions?**

Do you have any questions? You can read more about the exchange of mini-containers in the Municipality of Dronten at www.containerkeuzedronten.nl. Here you will also find answers to the most frequently asked questions. Is your question not included? Then you can contact us from Monday to Friday from 8.30 a.m. to 5 p.m. via telephone number 085 - 020 3740. For more information about the separation of household waste, please visit www.wijgaanvoor100.nl.

Yours sincerely,
On behalf of the Municipal Executive of Dronten

Ing. E. Smit
Team Manager of Waste, Cleaning, Civic and Accommodation Management
